

CHRONIC CARE MANAGEMENT MADE EASY

Welcome to CarePointe

CarePointe is a personalized service that works with Carson Medical Group (CMG) to help you coordinate your care with all the doctors, specialists, pharmacies, and labs you use.

This program provides you with an extra layer of care and helps your CMG doctor to monitor your care in-between office visits.

CarePointe follows up with you regularly to see how you're doing and help with any additional questions or needs you have.

A Personalized Experience

CarePointe helps you create a customized plan based on your specific needs. The care coordinators work with you to close any gaps in your care.

This additional connectivity helps you, your care team, family, friends, and caregivers become more involved with your care.

If you have Medicare, ask your doctor about chronic care management services. You may be qualified to receive CarePointe services at minimal or no cost to you.

Chronic Care Management Provided by CarePointe In Partnership with

Carson Medical Group

We understand that managing chronic care conditions can be difficult. That is why we have partnered with CarePointe to work with you to develop your personalized care plan.

This program provides you around-the-clock access to care team members and helps you manage your health in-between visits with your Carson Medical Group provider.

It has been shown to have a positive impact on health outcomes for its participants — including fewer emergency visits and hospitalizations by anticipating and addressing health concerns or complications earlier when they are easier to treat, or even prevent them.

This service is available to qualified Medicare members at minimal or no cost to you.

Chronic Conditions May Include:

- High Blood Pressure
- High Cholesterol
- Depression
- COPD
- Arthritis
- Diabetes
- Heart Failure
- Chronic Kidney Disease
- Ischemic Heart Disease
- Alzheimer's Disease
- Atrial Fibrillation
- Cancer
- Osteoporosis
- Asthma
- Stroke

Get Back To Doing What You Love

CarePointe helps you manage chronic conditions like arthritis, asthma, diabetes, and heart disease, so you can spend more time doing the things that are important to you.

CarePointe services include:

- Personalized assistance from a dedicated health care professional to help you create your care plan.
- Regular monthly calls to help keep you on track with your plan.
- Coordination between your doctor, specialists, testing centers, hospitals, and more.
- 24-hour access to your care team.
- Expert assistance with setting and meeting your health goals.

Remote Patient Monitoring

Remote patient monitoring connects you with your doctor in-between visits to the office so that he/she is better able to respond to your needs in a timely manner.

How it works

- A simple-to-use device (blood pressure cuff, weight scale, thermometer, etc.) is delivered to your home so that you can monitor your vitals with ease.
- Health assistants monitor and review your health data in real-time on a daily basis.

Did you know?

Six in ten adults in the US have a chronic disease, and four in ten have two or more.

Chronic diseases can be disabling and reduce a person's quality of life, especially if left undiagnosed or untreated.

Many chronic diseases could be prevented, delayed, or improved through simple lifestyle changes.
